Good Roads of Northern Missouri

We have had the pleasure of tour ing a number of counties in North west Missouri in an automobile re cently, and for good dirt roads, we believe that this part of Missour would compare most favorably with any other section of America. The much talked of King road drag ha had a great deal to do with the condi tion of the roads in Northern Mis souri. This certainly is a very strong argument for the use of road drag wherever dirt roads are depende

We passed over stretches of road which for miles and miles were a smooth and beautiful as a pike. Such roads, of course, had been dragged fo some time and had been brought up to a very high condition. One draw back in this section is the culvert and bridges. For some cause or othe the culverts and bridges have been shamefully neglected. No road is en tirely satisfactory, however good, if i is full of rotten and broken culvert and bridges.

It is true that the dragged road wil soften considerable after a hard rain and the soil in Northern Missouri of such a nature that it is especiall, susceptible to moisture and will cu up some after a rain at any season o the year. But the advantage of the dragged road is that, the surface being in proper shape, no water stands or the road at all, and an hourandahal of sunshine will almost dry up th mud, and after a half day there is no trouble at all. The dragging is usu ally done after a shower, and it is eas to keep tue roads in good condition.

Considering the satisfaction and the untold value of good roads, there is no excuse for any section in the Unite States to have quagmires or mud hole or other serious defects in its roads If gravel is not available, the road bed can be properly graded with a road grader, and the use of the drag on season will perfect as handsome stretch of road, in dry times, as an gravel pike could be.-Farm and

Paroling Federal Prisoners.

Another decisive step in the progress of the nation will have been taken when the recently created law for paroling Federal prisoners into effect.

The news dispatches convey the information that Superintendent of Prisons Ladow is soon to visit the larger Federal prisons, his purpose being to establish the new law upon an active basis.

In connection with this announcement there is printed the information that already half the states have laws providing for the paroling of prisoners, and that the records show that only five per cent of paroled prisoners have failed to appreciate the clemency shown them by keeping faith with the prison officials.

This, undoubtedly, is an excellent showing, fully justifying the wisdom of those who first planned to put offenders upon a basis where they might prove themselves to be possessed of reliability and h-nor, despite their positions as enemies to society.

The human race has so greatly advanced in the practice of ethics that there is no danger any reputable defense of the theory that offenders must be punished by means which P. Warrick, 3b 4 humiliate and degrade. The theory that men who are at outs with the law are merely delinquent, and that it is the duty of society to strengthen and enlighten them as far as possible.

is steadily gaining ground. Those states which have successfully put into practice the system of paroling prisoners, and have proved the efficacy of the system, have aided greatly in the effort which all wise and good people are making to bring about a greater degree of brotherliness among men; and the action of the Nation in adopting a state plan that has succeeded should be accepted as another real forward movement in the world's progress.

RUBY.

Seriously Injured.

Oscar Furgison, the little 6-year-old son of James Furgison and wife, was very seriously injured, Sunday last July 30, 1910, receiving a compound fracture of the right leg, between the knee and ankle. He had accompanied his father, who had gone to assist home from Mound City, having broken down. Mr. Furgison had taken an extra span of mules along, and changing teams, we understaed, Oscar was standing in front of the mules, when one of the mules made a vicious strike at the little fellow, hitting him between the knee and ankle of the right leg. the result being that both bones were broken and the flesh badly lacerated. Surgical aid was immediately se eured, and the fracture reduced, Dr Miller and Dr. Perry, of Mound City, rendering the first aid. He is now at his home, near this city, and is under the care of Dr. Wood and Dr. Proud, who reported the little sufferer as getting along as well as could be expected.

Miss Frances Soper, of St. Je seph, is here, the guest of relatives and friends.

-A few good, second-hand roadvagons and buggies at a bargain at Frank Foster's.

-Miss Regina McGill has returned to Oregon, after a visit of several weeks with her parents in Verdel. Nebraska.

Mrs. Mettie Payne, who has been seriously sick for several days, is now be at her place of business, which will be good news to her many friends.

-Mrs. Amy Hackett. of Fairfax, formerly Miss Amy Hasness, of this city, accompanied by her little daughter, visited in Oregon, last K. Hasness, and other relatives.

Obituary.

Henry Fink was born August 31, 843. at Mondelsheim, Wuertemberg, Germany; was married to his bereaved

companion in 1867. Nine children blessed their home, three of them dying in infancy, one in the old country and two here. They came to America in 1881, Holt county, Missouri, being their destination. Being limited in earthly possessions, they settled down to hard work for a home of their own. Mr. Fink to White Cloud Tuesday to play base learned to work early in life; he loved to work and blessed with health and strength, did work. And with God's blessing, which he learned to appreciate, his toil was not in vain. The result has been a pleasant home for many years. He was converted in the winter of 1881-1882 in a protracted meeting in the German Methodist church in Oregon by Rev. C. Hermann, the pastor of the church; he joined the church at the same time and was an acceptable member to the Kenneth visited relatives in the city, hour of death. He was also a member of the Board of Trustees of the Nodeway German M. E. church for many vears.

In October, 1907, his activity on earth came to a sudden end by a left Tuesday for a prospecting trip in stroke of paralysis on his left side. For many months the incapability to work was a heavier burden to him than his affliction itself. But by the grace of God he was strengthened to overcome and bear all in patience without complaint. He had the best attention and care that could be given by his life companion, Mrs. Fink; what she has been to him in those many long days and nights, cannot be told. Also his children and grandchildren close by were not neglectful of him and their mother. Such love will not be forgotten in heaven. Those are the flowers of which children ought to strew more on the path of their parents; they will keep longer than those we put on the grave; we will find them again in the better world.

Mr. Fink died on the morning of July 29, 1910, at the age of 66 years.

10 months and 29 days. The funeral services were conducted by his pastor, Rev. H. Bruns, at the Nodaway German M. E. church on Sunday morning at 11 o'clock. The attendance of his friends and acquaintances was large, between 200

and 300 being present. All of his children were present: Gottlob Fink and wife, of Oklahoma; Gotthelf Fink and wife; Mrs. Chas. Stadler and Mr. Stadler, Mrs. Rob. Hunziger and Mr. Hunziger; Mrs. Pommerenke, of Bison, Kan., and her husband, Rev. Pommerenke: Mrs. him in his usual health before many Krug and her father-in-law, Mr. Krug, of Bison, Kan.

Card of Thanks.

We desire to return thanks to friends for their kindness shown durine the sickness and death of our father, Henry Fnik.
